

We've finally developed an enamel Photopaint which can rival the old Liquitex Glossies in all the characteristics that matter to the Memorial Mason! It comes in a small 50ml plastic squeezable bottle, which has a non-messy flip-lid, is mixable, shouldn't skin over, is extremely durable, light-fast and is available in a starter pack of 14 popular colours taken from the 1Shot lettering enamel range...

Total cost of the 12-colour set is **£77.50** (ex VAT & Shipping)
(Individual top-up colours are available for £7.50 each)
